

# Accelerated Honours Economics B.A.

The Accelerated Honours Economics option caters to ambitious students who aspire to expedite their careers in economics and graduate in three years. This option is available to all Economics I students. Students will still need to apply to a Level II program at the end of their first year and must maintain a minimum cGPA of 5.0. All course prerequisites must be successfully met and requirements must be completed in the sequence below. Failure to follow the sequence will result in traditional length of the degree. Successful completion will allow for Fall graduation in November of the respective year.
